

An orange excavator is shown in the middle ground, working in a field of olive trees. The excavator's arm is raised, and it appears to be in the process of uprooting a tree. The background is filled with a dense grove of olive trees under a clear blue sky. The overall scene is one of agricultural activity in a rural setting.

These kids aren't told is that tens of thousands of olive trees are being uprooted in Palestine every year and replaced by these non-native trees, which destroy both the indigenous Palestinian agriculture and culture.
