Take It Away

Total Village Remover

The Jewish National Fund, of which Estee Lauder chairman Ronald Lauder is president, is a major owner of land in illegal Israeli settlements in the occupied West Bank and Gaza Strip. The JNF website says, "JNF has increased its water resources to furnish water to more than 1.2 million Israelis," but it doesn't say that they do that by stealing water from Palestinians. Over 80% of the water in Palestine is consumed by 400,000 Israeli settlers, leaving 20% for 3.5 million Palestinians. The Apartheid Wall, pictured here, is being constructed by Israel on confiscated Palestinian land to incorporate settlements into Israel without negotiating borders, in violation of international law and contrary to the objectives in the Bush roadmap. The Wall is three stories high and three times as long as the Berlin Wall. 10% of West Bank villages will lose all or most of their agricultural land and much of their water when the wall is built. Tens of thousands of trees have already been uprooted to make way for the Wall. The Palestinian economy is completely destroyed. The JNF says it is "a leading force for environmental work." Ronald Lauder should oppose the Wall, not pay for it.
